

Need front-line Informix support? Looking for a comprehensive service from experts?

The information in your Informix database systems is critical. Much of your business is built on it. So you need to be sure it's accessible. Instantly and simply. And you need to know that your Informix systems run at the peak of their efficiency. Any problems and solving them through rapid access to dedicated professionals is a must.

We're known as the industry experts

Ardenta's people are known in the industry as the experts in Informix technologies. Together, we have more than 50 years experience of database administration and design. We've worked in the most commercially demanding Informix environments.

We're an IBM Premier Business Partner too. So we hold copies of almost all IBM software, or we can access immediately. We can provide additional Informix

software as fast as you can order it.

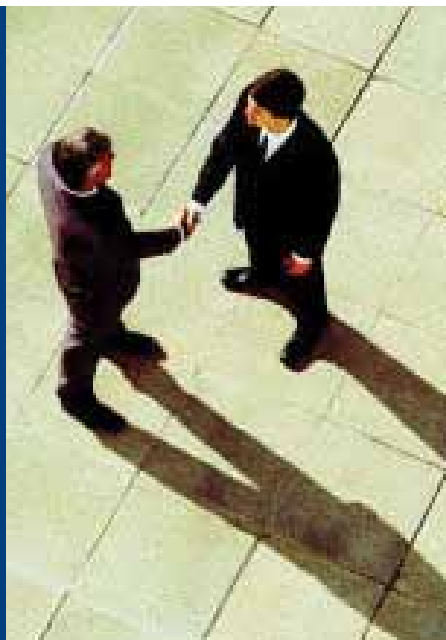

To make sure you get the best from our expertise, we offer a dedicated Informix support desk. It's staffed by Informix experts who provide practical help and advice. They put right any problems you're experiencing. We're also happy to chat about any issues, options and alternatives you might be considering for your Informix infrastructure.

We deliver Informix services to a range of customers in a wide variety of industries including:

Betfred
Blue Square
BUPA
ITV
Ladbrokes
William Hill

"We urgently needed the services of a competent Informix consultant. Fortunately for us we found Ardenta, who were able to provide a rapid turnaround and a quality service at a fair price"

Richard Lovelock - Head of IT
The Royal British Legion

Benefit from our experience and expertise

As the UK's renowned Informix specialist, the IBM community relies on us to create, maintain and support Informix data environments. In fact, we're specialists in Managed IT Services, with excellent technical accreditations from IBM, EMC, HP, Oracle and many more. Beyond that, we're highly experienced in their implementation and support.

For years, we've been delivering industry-leading Informix services to numerous customers across many industries:

• **Betfred** • **Blue Square** • **BUPA** • **East Kent NHS** • **ITV** • **Ladbrokes** • **Victor Chandler**

Keep your Informix systems at full health

Even the strongest systems under-perform. Maybe not everyone has understood the modifications made? Maybe architecture changes impacted the system's efficiency? Or perhaps you're asking just too much of your investment?

Our full systems health check and performance review will scrutinise every aspect of your system to ensure it is operating at peak performance levels. Our experienced and expert technical teams will take snapshots of your database and server performance over a two-day period. We'll then produce a Management Summary Report that contains detailed findings and practical advice to help whip your systems to a peak of efficiency and keep them there.

Sometimes you may need to make additional IT investment to ensure the optimum efficiency of your systems. Ardentia will advise you on the best course for your organisation, so you can make an informed decision.

Whatever your Informix needs, we'll have the solution

Ardenta's an organisation founded and run by highly skilled technicians with an enviable depth of knowledge of Informix solutions. So whatever your Informix needs, we can help:

- Performance Tuning
- Database Administration and Management
- Problem Analysis
- Backup and Restores
- Upgrades
- Migrations and Upgrade services
- Consulting
- Database Design
- Technical Architecture
- And more ...

"We needed a health check of our Informix system, so we turned to Ardentia for help and advice. After a consultation process, Ardentia highlighted five areas of improvement before reconfiguring the system. We were delighted with the result as we doubled the performance of our system during critical times."

Navjot Wyld, Head of Software Development
ITV Broadcasting.

The Ardentia difference – excellence through expertise

Founded over 10 years ago by highly skilled technicians, Ardentia's grassroots shape our culture of technical expertise and excellence today. Since our beginnings, we have flourished as a successful and growing IT consulting company, providing Managed IT Services, Hosting & Cloud Solutions and Professional Services.

Our culture of expertise and excellence helps us to deliver on our mission to ensure that customers' enterprise information systems are designed, implemented, managed and fully supported at optimum levels.

So why not get in touch and see how we can help maximise your systems?
